

Boxes? Why not?

Preface

We Are One Of The Most Flexible And Efficient Corrugated Plants In Jakarta, Indonesia. With over 20 years of manufacturing experience and production capacity of 3,000 tonnes monthly, Nagasena specialising in expert corrugated packaging solutions for diverse applications and industries. Complete manufacture operation under one roof. Let us take care of all your packaging needs.

Production – Corrugator Machine

Having a state of the art 1.8m wide corrugator is Nagasena's competitive advantage as we are able to produce our own corrugated sheet, this ensuring control over reliability and consistency of product.

Corrugated sheet is manufactured to order in

- Single Wall C/F and B/F
- Double Wall C/B Flutes.

Sheets can be ordered in white and natural brown kraft.

Converting & Finishing

We boast highly efficient and modern converting machinery, incorporating :

- 4 flexo printing machines (two 4-colour, one 3-colour and 1 two-coloured)
- 2 automatic folder gluers
- rotary and flatbed die cutters
- 10 stitching machines
- butterfly pounding machine
- 2 slitter machines

Storage & Distribution

Nagasena's extensive warehousing capacity is equipped with the latest inventory management system, which allows us to provide you a timely scheduled product delivery by our fleet of trucks.

Giving you maximum value with minimal investment in product and warehouse space.
